

VIVEK KUMAR

Software Engineer

vk27092000@gmail.com | +91-8521324089 | Noida, India | LinkedIn | GitHub

SUMMARY

Detail-oriented Software Engineer currently working on a large-scale print automation and workflow system. Experienced in backend development with Node.js, Python, and AWS, along with strong foundations in Spring Boot and Microservices. Skilled in system debugging, dependency analysis, legacy migration, and building scalable automation pipelines. Committed to delivering reliable, maintainable solutions in Agile environments.

EXPERIENCE

Software Engineer

Aug 2025 – Present

MountBlue Tech (Client: Naviga) · Noida

- Working on a large-scale print automation and workflow system using Node.js, Python, and AWS (S3, SQS, EC2)
- Modernized print automation by deprecating legacy configuration blocks while ensuring backward compatibility across different system triggers
- Migrated from older engine setup to a unified flow-based architecture using a fallback strategy for smooth transition without breaking existing functionality
- Performed deep dependency analysis across a large codebase to identify active vs unused components, tracing execution flows through backend services, queue systems, and automation pipelines
- Improved and maintained an internal Python-based installer tool — implemented version tracking, post-installation cleanup, and optimized installation flow
- Analyzed and replaced OS-dependent scripting logic with more scalable, cross-platform approaches
- Conducted log analysis, troubleshoot distributed workflows, and traced end-to-end execution from input triggers to final output generation

Web Developer (Intern)

Aug 2024 – Mar 2025

CodSoft · Virtual

- Designed and developed responsive web applications using the MERN stack (MongoDB, Express.js, React, Node.js)
- Built reusable React components and integrated REST APIs for efficient frontend-backend communication
- Collaborated with team members to deliver projects on time following Agile development practices

PROJECTS

WellFound Clone

Spring Boot, MVC, JWT, PostgreSQL, Cloudinary

- Job platform with JWT authentication, role-based authorization, job search/filtering, profile management, email notifications, and Cloudinary-based resume storage

SplitWise Clone

Spring Boot, Factory Pattern, OAuth, PostgreSQL

- Expense-sharing app using Factory Design Pattern for flexible expense types, with OAuth authentication and multi-currency group cost management

College ERP Portal

Spring Boot, Spring Security, MySQL

- Role-based authentication and authorization system (admin, HOD, teacher, student) with granular access control to institutional resources

TECHNICAL SKILLS

Languages	Java (Core & Advanced), Go, JavaScript, Python, SQL, HTML, CSS
Frameworks	Spring Boot, Hibernate, Microservices, React, Node.js, Express.js, Thymeleaf
Databases	PostgreSQL, MySQL, MongoDB
DevOps & Cloud	Docker, Git, GitHub, AWS (S3, SQS, EC2), Render, Railway
Concepts	REST APIs, JWT Auth, OAuth, Design Patterns, Agile/Scrum, DSA

EDUCATION

B.Tech in Computer Science

Jul 2021 – Jun 2025

Bharat Institute of Technology and Engineering · Meerut, India

CERTIFICATIONS

- Blue Prism – Robotic Process Automation (RPA)
